

CMS/IP Point of Sale (POS)

OUR POINT OF SALE SOFTWARE GIVES YOUR CUSTOMERS A CHOICE of how to pay for goods and services – using their CMS/IP account, EFTPOS or cash. It's a versatile system that also allows them to reload their CMS/IP account.

CMS/IP records and reports on all transactions, and for even greater control, the addition of the Back Office application offers stock control, centralised terminal configuration and enhanced reporting.

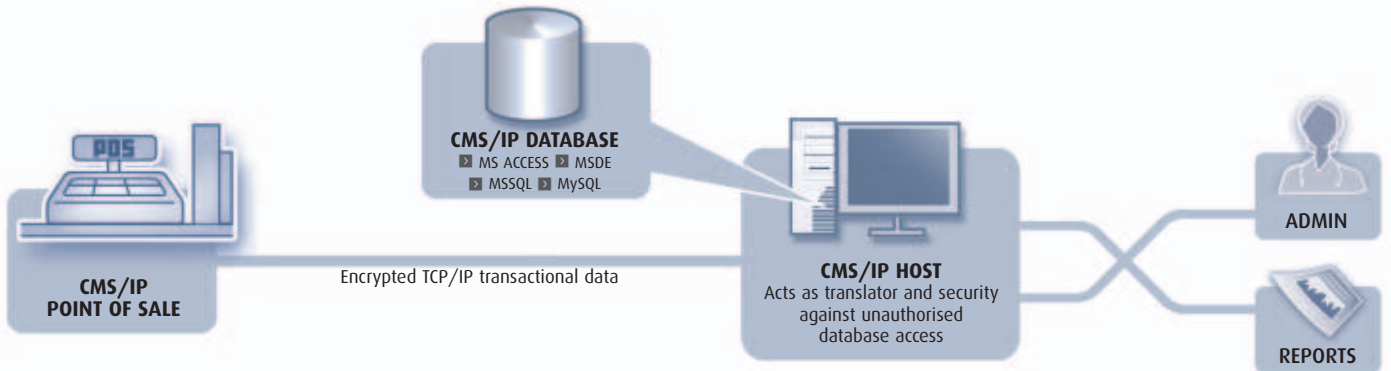

Benefits

- ▶ Flexible service for customers
- ▶ Quick transactions (swipe card vs cash handling)
- ▶ Simple to use
- ▶ Detailed reporting
- ▶ Greater control with Back Office (additional option)

Expand the
CMS/IP system
for convenient
handling of both card
and cash sales.

How the CMS/IP Point of Sale links to CMS/IP

CONVENIENCE IS CRITICAL TO TODAY'S CUSTOMERS.

With our Point of Sale software they have the choice of how to pay for goods – with cash, EFTPOS or using their CMS/IP account. It's quick and simple, and enables you to expand the power of CMS/IP into your sales areas.

Features

- Offer both purchasing and account reload
- Accept cash, EFTPOS or CMS/IP payments
- Optional EFTPOS built-in
- Use with touch screen kiosks or on PCs
- Add ancillary equipment, such as cash draws, barcode scanners and receipt printers
